Sleaze, Lies, & Suicide in a California Beach Town

As the first directly elected mayor of her town, businesswoman Debbie Peterson expects to work collaboratively with fellow councilmembers to help her small town reclaim its image and boost its economy. It's not long before she realizes that she is up against a well-disguised centuries-long convention of bribery and corruption in which the players have discovered how to game government agencies, robbing the complacent citizens who've come to expect a lower standard of service. But some of the citizens want to fight back and they enlist Peterson in their effort. The true insider still-breaking news story of a diverse group of small-town heroes who band together to fight corruption and sometimes win. Amazon's #1 New Release in Criminal Evidence.
